Who I d previously really liked I don t know I just didn t really care who Lara Jean picked to give her heart to nor did I think she really deserved all the fuss A bit of a filler book 978 1442426733 I HAD to read the next installment after To All the Boys I've Loved Before finished the way it did I thought the pace was slower than its predecessor but I still enjoyed it as much as the first one. **P.s. still love you pdf** Lara Jean wants Peter back She will go for it despite her worries about putting her heart on the line and the possibility of getting hurt You have to admire someone who decides to overcome her fear of being abandoned. **P.s. still love you book** Cliffhanger No4 5 Fangs 978 1442426733 There are so many reviews I ll keep mine short and basic Also make sure you read the first in the series before looking at anything here This book was so much fun to read It picks up after the first and has Lara Jean and Peter in some turmoil There is a lot of turmoil throughout a good portion of this book I don t want to give anything away but the one major thing that is in this book is the surfacing of a video from a certain ski trip This is a major factor in this book There is also the chance to meet another of her letter guys Also.

Now a Netflix original movie starring Lana Condor and Noah Centineo In this highly anticipated sequel to the lovely lighthearted School Library Journal New York Times bestselling To All The Boys I've Loved Before Lara Jean still has letters to write and even to lose when it comes to love. **Book by jenny han p.s. i still love you** Lara Jean didnt expect to really fall for Peter She and Peter were just pretending Except suddenly they werent Now Lara Jean is confused than ever When another boy from her past returns to her life Lara Jeans feelings for him return too Can a girl be in love with two boys at once In this charming and heartfelt sequel to the New York Times bestseller To All the Boys I've Loved Before we see first love through the eyes of the unforgettable Lara Jean Love is never easy but maybe thats part of makes it so amazing P. **P.s. still love you pdf** S I Still Love You 2 To All the Boys I've Loved Before Jenny Han is the New York Times bestselling author of The Summer I Turned Pretty series Shug the Burn for Burn trilogy cowritten with Siobhan Vivian and To All the Boys I've Loved Before and P. **Book by jenny han p.s. i still love you** S I Still Love You She is also the author of the chapter book Clara Lee and The Apple Pie Dream A former children s bookseller she earned her MFA in creative writing at the New School Visit her at DearJennyHan. **P.s. i still love you jenny han pdf** Lara Jean returns and is back with even teenage angst and love drama for readers to get stuck into and after the unexpected return of one of her letters Lara Jean in thrown back into the past of when she was in eighth grade crushing on a blonde haired handsome called John Ambrose McClaren Just when you thought her and Peter Kavinsky were back on solid ground right Peter is still loveable but blissfully unaware of all the battles and paranoia of an awkward teenage girl such as Lara Jean and being unable to remain on the same page Lara Jean finds herself despairing and falling into a trap of comparing him to a boy who has never hurt her But like matters of the heart things aren t always so simple or black and white. **P.s. still love you jenny han** The book is an easy read with lots of funny and humorous moments that have you laughing out loud and I found myself simply unable to put it down Han s characters are relatable and the plot twists had you eagerly racing through pages to find out what the finale would be. **P.s. i still love you free read** I would recommend this book to anyone who loves chick lit and modern day romances someone who would like to get stuck into a new series and someone into light hearted reads 978 1442426733 I do love reading a book before the movie comes out however some part of me gets really nervous about it because then I ll find myself comparing the movie to the book and how they've missed this part out

and that part out however with how well done the first movie was I don't doubt them for a second with when it comes to book two they've got this in the bag P. **P.S. I Still Love youdrive** S I Still Love You continues on from the first book five days later Lara Jean and Peter have agreed to give their relationship a go and their puppy love is as sweet and mushy as you'd expect They're ready to put their all in to their relationship however Peter is still over friendly with ex girlfriend Genevieve and one of Lara Jean's five crushes gets in contact. **Book ps i still love you** After a quick sneaky peek of him at the end of the movie even though the actor has changed and I'm very excited about that I was very giddy to finally be introduced to the most anticipated character John Ambrose McClaren His role in this book was alongside the other main characters and he had a very prominent impact with Lara Jean feeling's and the direction she wants her life to go in John Ambrose McClaren is most certainly a better fit for Lara Jean than Peter is in a safe way They have in common with each other they're both as smart as each other they both think of others before themselves and they just seem to understand one another He's definitely a safer option when it comes to relationships however I'm not about that safe life You need someone who wants adventures and keeps you on your toes the way Lara Jean and Peter do That all being said I did enjoy seeing Lara Jean fall back in contact with friends like John as at this point she was still in a bubble of her family and Peter The two of them got up to things that only them two would enjoy and it was nice for Lara Jean to have another friend who wanted to get involved in the same events as she did and not have to force Peter to tag along. **P.S. I Still Love youdao** The route of book two's story line follows Lara Jean going down memory lane struggling with deciding which boy she wants to be with and which of her friends still have her best interests at heart As a sixteen year old I was the girl who had multiple crushes on boys in school and everyone treated it like it was the worst thing to ever happen to them but as the years went by and I started to grow in to myself and experiment with my appearance got confident etc I then was a lot like Lara who had options than none and as flattering as it is it's a recipe for disaster on all future friendships with the one's you turn down We also get to see Lara Jean think about her future after high school and consider all of her college options finally taking us slightly away from the childish mind set and towards Lara Jean becoming an adult Although Jenny didn't take away the friendship bracelets and scrapbooks just yet they are still and forever will be a part of the person Lara Jean is and will become. **P.S. I Still Love youdj online** The story line I loved the most in this book was Lara Jean and Stormy's relationship Stormy is in the care home that Lara Jean is volunteering at and the two really have a strong connection Stormy teaches Lara Jean the ropes of how to be around a boy and how to treat them whilst also giving her all the juicy details of her previous lovers from her lifetime Although Stormy knew Lara Jean was smitten by Peter she still tried to persuade her towards her grandson and while the plot twist of Stormy's grandson was predictable it still fit really well and only helped the two grow closer. **P.S. I Still Love youda** The simplicity of book one becomes a lot less simple in book two as Lara Jean tackles new issues comes face to face with secrets she shouldn't know about whilst trying to keep herself and her own life as stable as she can Baking is the only solution Jenny Han really is the master of light hearted stories that are still able to tug on your heart strings enough and I can't wait to tell you all about book 3 as that is when Lara Jean's life gets the most juiciest Queue the drama 978 1442426733 I have given P. **P.S. I Still Love youdaofanyi** S I Still Love You by Jenny Han five out of five stars This series is without a doubt one of my favourites of all time and yet to finish the last book in this trilogy The wholesome food and family content makes me smile so much the relationship drama is pretty entertaining and I absolutely adore Lara Jean to the moon and beyond Although this story focussed on heartbreak and complicated relationships there was still a good balance of fluff and light hearted contemporary found throughout this book This time we meet John Ambrose McClaren the fifth owner to the last love letter Lara Jean wrote as we previously found out from the first instalment John Ambrose McClaren is gorgeous smart a total heart throb in Lara Jean's eyes and wow did he stand out in this book Who doesn't love a love triangle trope I love how Jenny Han's writing is so compelling that it transported me right back to my school days where a lot of relationship and friendship drama took place happy and sad memories to be remembered but that aside I find it

incredible when an author has the ability to do that with their writing. **P.s. i still love you book S I** Still Love You it allowed me to imagine how they would have looked like I have mixed feelings about reading the last instalment in this trilogy as I don't want it to end but also I want to know how it all ends despite having watched the last movie of this trilogy last week 978 1442426733 I really liked the first book and rushed to buy this one only to be disappointed For starters Lara Jean spends the whole story being insecure about her boyfriend's ex Genevieve or wondering if he wants to have sex with her Lara He is a guy so yes stop asking That is seriously 90% of the book She became the crazy girlfriend who kept bringing up his ex Now Peter did run to his ex's aid too much and the grand reason he was such a necessity to Gen was just lame The ex used a mildly upsetting scenario no one died or was dying to keep Peter on the hook and he was too dumb to realize it So he was to blame for a bit of Lara's insecurity but it was pretty clear that the author had no real story in mind for this book by how many times Lara questioned the same things over and over The author admitted this was written at fan request just to explore John Ambrose a pointless addition and it showed. **P.s. i still love you pdf** What I truly hated was the whole sex tape story line Without consent from either Peter or Lara Jean they were filmed making out in a hot tub on a school trip Lara fully covered by some old lady type of nightgown and Peter in a bathing suit The recording was then shared with their entire class Against the law I work at a school Genevieve would have been suspended if not also charged Nothing happens to her Peter knows and remains her lackey which should have resulted in his permanent kick to the curb by Lara but she ends up shrugging it off because she realizes he and Gen and she and Gen have a connection Really Um no The girl was a two book mean girl she deserved a tell off if not a slap not unconforted forgiveness So dumb On top of that Lara gets sex shamed for starring in this tape like it was her choice Yes the student reaction is sadly the norm but the teacher who shamed her for not seeming like the type of girl to do this sort of thing should have been reported and fired because a girl kissing a boy is not a bad choice nor is making out with one nor did Lara choose to be taped Worse was Lara's dim father who doesn't seem to parent much telling her to make better choices because of course she knew Gen was a jealous perv taping them with a mind to distribute her work Seriously A woman wrote this Dad should have gone through the roof and demanded the school do something since this happened on a school trip and was it was being distributed at school not acted like it was in anyway Lara's fault I get that the author wanted to show that Peter as a boy had an easier time of it than Lara as a girl but the teacher and father reaction was just way off I was done with her dad as a character after that. **P.s. i still love you pdf** This whole book seemed to be proof Lara and Peter were better off apart as both had good reason to dump the other for good but they find their way back to each and into a third better written but still not as good as the first book novel My best advice is to read the first book and make up your own story for what comes next 978 1442426733 I really dislike Peter There I've said it it's out in the open But actually this book changed my mind Now I prefer Peter over Lara Jean This is basically a catch up book to show us how the relationships have started to unfold following on from the events of the first book The good thing about that is that Jenny Han really beautifully captures what it means to have that nervous excitement of first dating someone but then somehow manages to tie in the routine of a steady relationship I really felt like she just GOT it Also who can't relate to some ex girlfriend drama Nailed that one too. **P.s. i still love you book** And really that tied in with a few extra pieces about Kitty setting her dad up on dates and Lara Jean dealing with the fall out from the hot tub video is basically all this book is about And it's done well but it's definitely disappointing I really felt as though there was nothing happening in this book aside from some relationship friendship family dramas I should admit here that I don't make a habit of reading light and fluffy romances they're just not for me so perhaps the downfall is with me than the lack of much happening in the book But I felt like should have been happening I was pretty bored. **P.s. still love you ar answers** Maybe if I loved Peter and Lara Jean together I could have been gripped I love a likeable romantic pairing as much as anyone but it was disinterested and not at all engaged by any of the characters Even Kitty he is home when Lara Jean comes knocking This is when I start thinking that everything is going to be ok now They are together what can go wrong One answer Genevieve

Genevieve keeps on using Peter for who knows what She keeps on calling him and the worst part is that Peter answers every single time Yes Lara Jean knows Peter cares for Genevieve but at the beginning she is accepting of this situation until she is not. **P.s. i still love you free read** To make the waters even murkier another boy she wrote a letter to is back You might remember the tiny sneak peak we got in the first book about John Ambrose McClaren well he s back in full force He s the grandson of Story an awesome lady with amazing stories to tell who s at the retirement house where Lara Jean is volunteering John Ambrose is everything Lara Jean wants from a boyfriend and he even helps her out when she needs it during the USO party she throws at the retirement house I would love to see this in the next movie Their scene together was beautiful John Ambrose McClaren is dreamy but he is not Peter K and sometimes the heart wants what the heart wants. **P.s. i still love you book summary** I was torn between both guys which is weird because I was Peter K team all the way in To All the Boys I ve Loved Before Yet I was very happy with Lara Jean s decision and I was happy she made good choices too. **P.s. still love you bookpedia** I thought the book portrayed a nice relationship between the siblings They had an awesome relationship with their father I adored him which was a nice change since most books have horrible family dynamics. **P.S. I Still Love youdj online** Kitty as well as Stormy Gen is up to her tricks again it would seem but I ll let you see what s up there on your own So this book is one with a good bit of teen angst but these teens are very good kids for the most part so it s not one that has terrible influences aplenty This makes it appropriate for a good range of reading ages It s a fun book that might make you happy sad mad and any other range of emotion but in the end it s a feel good book that just makes you fall in love with the characters you ve learned to care for in the first book 978 1442426733 Sometimes I think I m dead inside all I hear about this series is gushy gooey good sentiments but all I felt reading this book was frustration I really enjoyed To All the Boys I ve Loved Before I thought it was nicely paced with realistic characters and a somewhat unpredictable love triangle WHERE DID ALL THAT GO IN THIS BOOK Lara Jean what happened to you Peter Kavinsky when did you become such a jerk John Ambrose McClaren why are you so adorable And where the hell is Josh did he move It may get spoilery from here so stop reading if you don t want to know what happens. **P.s. still love you book** I found the love triangle increasingly irritating this whole book just felt unnecessary and a rehash of the previous book with a different cast of characters the conclusion was inevitable The last chapter was basically oh yeah you were a ass but don t worry about it let s get back together It felt really rushed and just showed that neither character had really learnt anything from their experiences in the book The lack of communication between Peter and Lara Jean was making me scream inside and even after finishing the novel I still don t know why he couldn t have just been honest about the Gen situation from the start He plain and simply picked her over Lara Jean in many situations and without communicating any reasoning behind that it was a total dick move. **P.S. I Still Love youda** I felt sad for John who seemed to be a genuinely nice guy who honestly liked Lara Jean He didn t really deserve to be treated the way he was strung along just to be dropped with no real explanation I also hated Kitty s attitude to the whole situation she was one of my favourite s in the first book and she just gets and bratty in this one I really just wanted to give her a clip around the ears oh my god. **P.s. i still love you book** I m going to read the last book mostly because I already bought it but honestly Jenny Han you ve got some serious work on your hands to get me back on board with these books 978 1442426733

, **P.s. i still love you pdf** So what does Lara Jean do She writes a letter to Peter K but this time she takes it to Peter K herself Gladly.

### **Book by jenny han p.s. i still love you**

Gave this book the sassiness it needed: **P.s. i still love you pdf** After racing through To All the Boys I've Loved Before I had to move on to the second book and I was instantly hooked from the first few pages. **P.s. i still love you book summary** I really enjoyed the scenes from the book which didn't make it into the movie adaptation of P.com. when did I become my nan
